TO THE BALD HEADED.

AND all who would have a fine flowing head of hair Never till lately did we believe that there was any thing that would restore hair on bald heads, but the proof that we have seen in the GRIDNEY'S HAIR OF COLUMBIA from Cleveland & Ross of Cincinnati, will do it incontestably. We have seen a friend, who is seventy years of age, and was for twenty years perfectly bald who had his bald spot covered with hair. Our numerous instances of a similar kind have lately come to our notice which induces us to recommend it to all who are losing their hair For our part we would not be without this balm on any account

LORAINE'S PILLS:

OR

VALUABLE UNIVERSAL MEDICINE.

OF THE

French College of Health, in Paris.

THESE Pills are now acknowledged by thousands who take them daily to be the only medicine that fairly takes the lead of all others. *The Extract Medicine* has done WONDERS within one year past all over the inhabited world where it has been introduced They cause no pain or uneasiness of any kind as their operation, and require neither change of diet or care of any kind

The attention of the readers is respectfully called to the following important results from the use of these Pills Twelve months since the wonderful achievements have heretofore been made by the use of this invaluable medicine —still greater and more remarkable cures daily happen

SWELLING OF THE BODY FROM HEAD TO FOOT CURED.

BOSTON (Mass) March 10 1844

SIR —About a year since I was taken severely ill with a swelling of the body from head to feet so that I was entirely helpless The doctor advised me to go to the Hospital, for he said he did not understand my case The persuasion of friends induced me to try Dr Loraine s Vegetable Pills, which in a few days, produced a great change in my system by purging the stomach and bowels, restoring appetite relieving the pain, removing the swelling and giving me strength and perfect cure.

MARY JANE BROOKS

A SEVERE PAIN IN BOTH SIDES CURED

LOWELL (Mass) April 20 1844

Sir—For the last three months I have been afflicted with a severe pain in both sides at the waist and that I could scarcely get my breath It is a pleasure to feel well—but a much greater one to say that I was cured immediately upon taking one of Dr Loraine s Pills

J BROOKS

A HACKING COUGH CONSTANTLY ADMOVED

Boston (Mass) June 1 1844

Sir —In February last I took a sudden cold after which, a hacking cough constantly annoyed me and thus combined with my other maladies rendered me truly miserable, as every body told me that I was in a consumption Since I have taken Loraine's Pills, and now every body tells me that I am well,—feel as well as ever I did

WONDERFUL CURE OF INDIGESTION

READ THE FOLLOWING My Dear Sir, I have pleasure to inform lately to puff medicines but I feel it a duty to do so from one a sense of my feelings—morning fed I not feel rapidly—speak in parlor room and out of a door I never felt fellow man You to result with what relation I have referred to my persons Child of Dyspepsia had contracted after many ineffectual attempts that a dollar value of ten years standing could not be cured by any medicine but will your infinite it was I felt just as my second hostile from your office as well as any member of our family The effect upon me has been rapid only former sensations seems like a dream and the pleasure of listening to and hearing conversation and as an ordinary person of me is other being so happy I hesitate to the end of my days to make strong testimony. I do not much fear to have my name and circumstances my the same good I have to encourage to your value.

Your obliged friend

...and Courier

...SAYWARD, Editor

...AY, FEBRUARY 17, 1845.

Extra Sheets to the Daily Whig and Courier will be issued occasionally containing COMMERCIAL READING, EDITORIAL and LOCAL MATTER.

☞ The following suggestions of the editor of the New York Tribune are worthy of being read and commended by every writer for the columns of a newspaper. The experience of editors in regarding certain specimens as best fully constituted and fine MS. expressed. Every editor we think will endorse these remarks to their redactorship. Will correspondents think of these things.

To Correspondents.

Do oblige us by omitting all such flourishes as "your interesting and valuable paper," "your able and patriotic counter," &c. Our subscribers and the public know all about that sort of thing, and we also have a favorable opinion of our own merits. If you think by this to impregnate your favors of our favor, you mistake widely ——

When you have written what you have to say on a topic and see if there are not some sentences that could be spared without serious injury. If there are, out with them! We are often compelled to lop off the finest and most graceful sentences because we cannot make room for them. A half column letter is always welcome two columns have one and three columns none.

Try to disparage as little as possible, and where you cannot condemn, let your facts be stronger than your words.

When you express any cause or person, always give us your real name, which we shall give up to whoever has a right to demand it. It is a weak and a coward who could ask us to bear the responsibility of his attacks on others.

Don't write on both sides of a sheet.

If you send us word that you have written in great haste, and have no time to copy, we shall put your manuscript quietly into the fire. We should rather throw on its pages a correspondent's scrawl, which we are obliged to slightly own work daily for want of time!

Give us facts, incidents, occurrences, at the earliest moment, and we shall be grateful, though you wrote with a pudding stick, but if you attempt logic or sentiment, do it up tight, instead of leaving on us.

Mr Norris, the successful machinist of Philadelphia, has leased the machine factory of Messrs. Fletcher & Punshon, in Vienna, and has made arrangements for carrying on its operations on his extensive scale. The Gutenberg has given him an order for thirty locomotives for its roads, and in order to expedite their completion, he will be obliged to import a large portion of the Materials from America.

☞ The New Hampshire locofoco convention assembled on account of Hon. P. Hale's letter against the Annexation of Texas, have declared that Mr Hale has forfeited his nomination and nominated in his place John Woodbury of Exeter. It is thought there will be some people in New Hampshire, who at the next election will vote as they please. It is a party ridden State and Hale will probably be defeated, although he should be elected.

☞ The New York Commercial Advertiser has information from Washington, that the last steamer from England brought dispatches to Mr. Pakenham, the British Minister, to demand an explanation or apology" for the extraordinary language used with regard to England by Mr. Calhoun, as Secretary of State, in his letter to Mr. King at Paris, and published under the authority of our Government.

☞ We learn from late foreign papers that a plan has been projected at Vienna, and received with interest by the booksellers of Berlin, Leipsic, Frankfort, Stuttgardt, and other principle German towns, for the establishment in New York of a grand central depot, for the U. States of America, of German literature, on behalf of the leading publishers of Germany.

☞ At the recent trial to elect a Mayor in Boston there was no choice. The votes stood for Parker (Whig) 3342, Davis (Native) 3035, Homer (Locos) 1450, Scattering 12. The vote, it will be seen, is very light and of the whig vote, both of its minus more at the next trial Davis will be elected

☞ It is stated by some of the Washington letter writers that under the vote of Shepard Carey for Annexation, he has been called the "lone star." This vote and the new title, his friends intend to use as capital with which to make him Governor of Maine. Strange things have happened.

☞ The Boston Mercantile Journal says that Capt. Kelley of the bark Zalinte, arrived from Malaga, states that on the night of Dec. 23, when passing Tarifa, (a fortified Island in the Straits of Gibraltar, belonging to Spain) his vessel was fired upon from the fort, and his mate struck shot off, and his lower studding sail mutilated.

Bangor Courier—Weekly.

Our weekly paper will be ready for delivery this afternoon. It will contain original Tales, an interesting chapter from Christian's Prairie Log Book, Intelligence of Whigs, Poetry, News, Editorials, Proceedings of Congress and of the State Legislature and a great variety of interesting matter. Four cents a copy.

☞ There is a petition before the New Jersey legislature for the incorporation of a company with a capital of $100,000, to construct a magnetic telegraph across the State, between Philadelphia and New York.

☞ Little's Living Age N. 40 has been received and contains as usual a variety of Entertaining and Instructive Reading. This work is for sale

Outdoorkery.

In process of time, let all console themselves, the matter will cease to be "the talk." At first, in most places and neighborhoods, and already some in several publications have appeared upon the subject. We have not the slightest doubt that the Trial, though accepted at a loss as was ever published, is the matter of the hotchpotch but we can not forget or pass the medal who has determined him to wade through sneers, hoot, the rare jeers, whose interest lies in that direction. This was known to some for long time, and friends and gossipers in general, by standing were open to utility to listen to the tittings and tittles of their possessors. A layman delineation is disposed of in one pamphlet, or in dozens do under the body of his view in a nameless grave — a clergyman of the lower rank, such as the Bishop who Dodo behind the name of "Big Humphrey Parrotoll," is thought to be compensated for the perilling of his soul, and the world's knowledge of the fact, by the paltry consideration of a part of tracts; but when a Bishop, "Right Reverend Father in God," and successor of the Carpenter and Fishermen Twelve, sees fit to repel, as he has a person, his Father's daughter, a decent regard for his consequence and position, requires his fellow citizens to attend the funeral of his virtues with vast flourish, and to search in a score of pamphlets for the eulogium of his vices The conclusion in the matter seems to be — that the accused did commit some or all of the offences charged: that they were committed some four or five years ago, and no complaint made up to this time; but since the Bishop's ordination, or his refusal (a matter of indifference) to ordain a Mr. Carey, these charges have been so pressed as to result in his impeachment and sentence

The feeling upon the subject of Mr. Carey's ordination arose, it was remember aright, from a division in the Church, in which was prominent this "Passyism" — an affair as silly, if possible, as that which gotten the title of this article.

The Harmonons—Black and White.

The City Hall was crowded on Friday evening "from pole to door, as the Boston folks say of their Theatres, by the very fashion and beauty of our city — a perfect jam — to witness the 'Grand Ethiopian Opera,' which came off in fine style. 'Fanny' seemed to be quite at home — indeed we think Mr. Pike's peculiar *forte* is in such characters, his voice being so well adapted — and the whole band sang and performed on their various instruments admirably.

These performances have become quite the rage now days, and take much better than elaborate and finished singing, especially in a place like this, where we have so little amusement. The people want something light and fantastic — and the whole band sang and performed on their various instruments admirably.

☞ Vinal Radreads are of more interest to the capitalists who are to make or lose by them, than to the public generally; and all who devote their time to the subject of nursery or shade should be remunerated. In this view, we suggest to the Boston Courier to *charge* for communications obnoxious to these remarks — first, the ordinary price of advertisements — second, the per cent. more for putting them in the editorial columns, and third, 100 per cent more for giving the character of *quasi* editorials — and added to these, double the whole amount for the delusion of that number of readers who are resident enough to consider them legitimate matter. The reflection that these dollars are chinking in the pockets of a favorite editor, may perhaps provide the compensatory reader for the infliction of so formidable a bo —

☞ A Correspondent of the New York Journal of Commerce is strongly moving in a movement of the journey of President Polk to Washington. He is probably paving the way for another pair of pitchers or pitchers wroth.

☞ The Frontier Journal, a locos print hints darkly at the existence of trouble in the ranks on account of the Collectorship at Eastport — Securing the spoils makes hard work for the locos

☞ The Maine Lodge No. 1, of Odd Fellows in Portland have recently given $20.24 cents, the result of a contribution, to the *Widows* Wood Society

☞ The Washingtonian County Convention will be held in this city on the 22nd inst. A large delegation is expected, and the meeting will be one of much interest

Hon Luther Severance will please accept our thanks for his attentions in forwarding us public documents.

☞ We should be glad to have a short letter now and then from our correspondent "H. B." Will he oblige us to day?

☞ Many of the Georgian Planters intend to engage in the cultivation of tobacco.

☞ The Washingtonians meet at their Hall this evening

☞ A letter from Washington to the N York American says —

The decent M. Y. Tyler still is without dignity and without regard, and his period of administration will stand out on our historic page, as at once the meanest and the weakest. Political weakness is profligacy, and nonsense in profession of purity and patriotism that our annals have mentioned.

Fire.

On Sunday night, the dwelling house of Mr Samuel H. Neal, in this town, was discovered in the chamber. The alarm was given by a person who happened to be passing at the time, but the house was so much on fire, the persons engaged in extinguishing the engines could get to the spot.

☞ Many of our exchanges are filled with accounts of the extraordinary exploits of Mr Fox on his journey to Washington. Some of the specimen items he has written perhaps in the joke, but the bear is so large, we have no idea it is strongly partisan.

☞ We have received from Bogher's Periodical Depot, the March number of Graham's Magazine. It is a good number

☞ The Mormonism now alive that Col Wm H Polk says that he is fully convinced and sought the office of Minister to Naples

☞ Gen. Cass will be opposed in U. S. Senator from Michigan. Hezekiah G. Wells was the Whig candidate.

☞ The New York American has been united with the Courier and Enquirer.

☞ Only about half our regular supply of exchange papers came by the mail last evening.

☞ There was a moderate rain here yesterday.

MAINE LEGISLATURE.

Augusta, Feb. 14.

Passed to be enacted—Bill to incorporate the Hallowell Cotton Manufacturing Company—additional relating to duties of Register of Deeds—regulating compensation of jailors for the support of prisoners in County Jails; to incorporate Washington Manufacturing Co; to incorporate Fellsbrake Iron Co.

Finally passed—Resolve in favor of Eli Tyler, Sprague, and Caleb Nodding.

Mr Rose from the Committee on Militia, reported bill additional to the Bill Chapter of the revised Statutes, which was assigned to Tuesday next, and 600 copies ordered to be printed.

Resolve for the purchase of Gerrish's map came up on its passage to be engrossed, and after some discussion was laid upon the table.

Mr Dunn moved to proceed to the consideration of the bill incorporating the Portland Steam Packet Co.

Mr Otis opposed the bill in the old fashioned, narrow contracted locofoco style, and before completing his story the Senate adj.

In the House—Passed to be enacted—Bill allowing the issue of holding the County Commissioner's meetings in Southern County.

Mr Moor, from the Committee on Interior Waters, reported a bill incorporating the Penobscot Boom Corporation, which was read and Monday next assigned.

Mr L. F. Pierson offered the following:

Ordered, That the Joint Standing Committee on the Judiciary be directed to report an act to abolish the office in Attorney General.

The presentation of this order elicited considerable debate,

The order was passed, yeas 70, nays 27, Adj.

CONGRESS.

Washington, Feb. 11 1845.

In the Senate — A number of petitions were presented—among others one by Mr Dix for the Annexation of Canada.

The Senate then went into the consideration of other bills—among them the Dubuque Claim. In the House—Resolutions from the Legislature of Maine were presented, and ordered to lie on the Table and to be printed.

Mr Levy presented resolutions of the Florida Legislature, urging the extension of that Territory as a State. Laid on the table and ordered printed

The House then resolved itself into Committee of the Whole—on the bill for the Admission of Iowa and Florida

Mr Morse of Maine offered an amendment in a proviso, that Florida shall, by Delegates chosen by the people, so amend her Constitution as to strike out that part which prevents the liberation of slaves and the ingress of colored people to the Territory.

Mr Brown, of Tennessee, objected to these propositions taken to Constitutions adopted by the people.

A motion was made that the Committee rise — To its the affirmative, Ayes 100 nays 80 — Committee Chair voted in the affirmative and the Committee rose.

Mr Cave Johnson moved that all bills relating to Territorial affairs be made the special order for Thursday next.

Pending the motion, the House adjourned.

Feb 12.

In the House of Representatives, after the transaction of some unimportant business, a convention was formed of the House and Senate for the purpose of canvassing the votes for President and Vice-President. After the usual formalities the vote was declared—for James K. Polk, 170, and for Henry Clay, 105, and the same number respectively for George M. Dallas and Theodore Frelinghuysen; and James K. Polk and George M. Dallas were respectively declared elected—the former as President and the latter as Vice President, for four years from the fourth of March next.

The joint convention separated, and both Houses adjourned.

The New York Fire Sun relates the following incident which took place during the late fire in New York:

The raging which *edged* the roof of the True Sun building in front, caught fire, and would in a few minutes have communicated the flames to the interior, when Mr Bennett, foreman of engine No 22, being then on the roof, scraed, the tiles and endeavored to tear them down. Finding them too tight for handling he threw snow upon them, and finally succeeded in wrenching away the entire railing. This done he was discovered standing on the *very edge* of the roof, five stories from the ground, without stay or support, without an inch of foothold between him and the distruction which the slipping of his feet with the very least slip would have insured. He scrambled back from his perilous position, and we soon other heard his manly voice in our compositing room doing his gallant fellow labourers — he (as we know they moved the type. Talk of heroism on the field of battle — this would not rather seek a conflict with weapons of war than with fire and water and wind?

Why is the man who built this building (the Sun Office) not the man who stole $10,000 in counterfeit money? Do you give it up? — Because he didn't make a good *Hole*.

Charleston Mercury.

Grand Concert
AND
ETHIOPIAN OPERA

THE
Harmoneon Family

Respectfully announce that they will give an

Musical Entertainment
AT THE CITY HALL,
ON MONDAY EVE. FEB. 17th.

PART I
They will appear in Family Costume as Old Folks

Charge men of every profession Lists, crowded their Concerts during the past winter the New England States, have pronounced their performance unexceptionable. feb 17

Notice to Mill Owners.

THE undersigned, having purchased the full of the right of making, selling, and using, ENTINES PATENT CAST IRON WATER WHEELS, for the United States, have at a great expense fitted up patterns for Castings, for all different sizes of these Wheels, which are pronounced by all who see the various Patterns, to be which they may be wanted.

Upwards of two hundred of these Wheels have been put in operation in this State within the last year, giving perfect satisfaction to the purchasers.

A model of these Wheels can be seen at Lowell, Mass. the past summer, he attended on the exhibitions of the Mechanics Fair of Boston and Lowell, Essex, Lowell, and N. A. Scholfield, Worcester, and it was afterwards placed in the Institute of Technology, where it was tested in action, and received the only diploma awarded on wheels.

We annex an extract from the certificate of J. A. Straw, Lag. one of the board of examiners, published in the proceedings of the exhibition at Lowell, which establishes the great superiority of this "Valentine Wheel" over any of its kind in use —

"MANCHESTER, July 11, 1844

Dear Sir—I send you the results of yesterday's experiments made at Lowell the other day with the Model of Valentine's Patent Reacting Wheel. I consider the trial to have been a very fair one, and the results are certainly very creditable to your wheel. I think they prove conclusively that you have a wheel that will generally take place of the Undershot Reacting Wheels now in general use. The coefficient of effect, or per centage of power derived from well constructed Breast or Overshot Wheels acting under favorable circumstances is usually reckoned at 60 per cent, and that of Undershot, Tub and Reacting Wheels at 50 per cent, but in some cases of ten in practice I feel that it will be found that the power derived from Breast Wheels will not exceed 60 per cent of the power applied, and that the power derived from Tub, Undershot or Reacting Wheels 25 per cent of the power applied. I know of no well constructed Tub Wheels acting apparently under favorable circumstances that do not give a coefficient of effect equal to 30 per cent.

With the results of your wheel before us it seems no argument is needed to show how vastly superior it is to such Wheels as I have mentioned. The least result obtained from your wheel gives us about 37 per cent, of the power derived, which is nearly double of the power that could be derived from the common wheels before mentioned, acting under the same circumstances.

I have paid nothing to the coefficient of effect for the friction of the wheel and apparatus whatsoever according to our measure of it, was about 2 per cent. Your wheel weight nearly 1 lb. which is perhaps it should be put at the actual effect of your wheel. I should give as the result of the trials a coefficient of effect of 30 per cent. which I have no hesitation in saying is a result that can be obtained from any wheel similar to the model constructed and acting under favorable circumstances.

Experiments No's 1, 2 and 3, were made without back water. Ex. No. 1 400 lbs lifted 3½ feet—1400 feet—effect 49 30 per cent—2 Hawing lifted 1½ feet—fall 5.69 ft.—effect 41 9-10 per cent. 3 lbs lifted 9-12 ft—fall 6.7 feet—effect 42 3-10 per cent.

The mean of experiments No's 1, 2 and 3 was 42 1-10 per cent. without the friction, and the average of about 47 per cent. which may be compared as the effect of your wheel when working immersed in back water.

In experiments No's 4, 5 and 6 the wheel was immersed in back water, but was very evidently overbalanced.

In experiments No's 7, 8 and 9, wheel was immersed in back water.

Ex. No. 7 250 lbs lifted 5 1-2 feet—fall 4.7 feet—effect 38 30 per cent. 8 200 lbs lifted 6 feet—fall 4 0-10 ft—effect 42 3-10 per cent. 9 lbs lifted 9½ feet—fall 4 01 feet—effect 45 7-10 per cent.

The mean of experiments 7, 8 and 9, would give 42 1-10 per cent. besides the friction, in all average of about 43 per cent, which may be compared as the effect of your wheel when working immersed in back water.

E. A. STRAW, *Civil Engineer of the Merrimack Water Power Co.*

FRESH CURRANTS CITRON, &c. A large supply of Fresh Currants and Citron, just received per last packet, by
G. W. LADD.
feb 6

TO THE
Citizens of Bangor.

A PASE attempt has been made by a Tailor in Boston to call attention to some little ready-made clothing which he palm off upon the people of Maine, by abusing the popular clothier of favorite known as the

Main Pillar of Oak Hall,

which is confessedly an ornament and credit to the city in which it is established, and where it is supported by men of all professions and callings of life.

Those in want of any article of

Ready-Made
CLOTHING,

of superior excellence and unrivalled cheapness will understand that the

MAIN PILLAR OF OAK HALL

No. 2 is the full title of success in the Queen City of Bangor, has given such a multitude of good bargains to the people of Maine, that Boston Warrenses feel the effect upon their trade and this view of a Simmons, whose vile notice appears, the obtained from any wheel similar to the model constructed and acting under favorable circumstances.

Experiments No's 1, 2 and 3, were made without back water. Ex. No. 1 400 lbs lifted 3½ feet—1400 feet—effect 49 30 per cent—2 Hawing lifted 1½ feet—fall 5.69 ft.—effect 41 9-10 per cent. 3 lbs lifted 9-12 ft—fall 6.7 feet—effect 42 3-10 per cent.

The mean of experiments No's 1, 2 and 3 was 42 1-10 per cent. without the friction, and the average of about 47 per cent. which may be compared as the effect of your wheel when working immersed in back water.

In experiments No's 4, 5 and 6 the wheel was overbalanced in back water, but was very evidently overbalanced.

In experiments No's 7, 8 and 9, wheel was immersed in back water.

Ex. No. 7 250 lbs lifted 5 1-2 feet—fall 4.7 feet—effect 38 30 per cent. 8 200 lbs lifted 6 feet—fall 4 0-10 ft—effect 42 3-10 per cent. 9 lbs lifted 9½ feet—fall 4 01 feet—effect 45 7-10 per cent.

The mean of experiments 7, 8 and 9, would give 42 1-10 per cent. besides the friction, in all average of about 43 per cent, which may be compared as the effect of your wheel when working immersed in back water.

E. A. STRAW, *Civil Engineer of the Merrimack Water Power Co.*

All persons wishing to purchase Mill Wheels of other Patentees, can have their orders executed promptly and on the most reasonable terms.
